PosiCharge SkyLink™

A cloud-based business intelligence platform

PosiCharge SkyLink

PosiCharge SkyLink is a cloud-based business intelligence platform that collects energy consumption, usage, safety, and performance data from your PosiCharge fast-charging systems. Asset management is centralized, intelligent, and scalable to your needs. With the right data, you can make smarter decisions to optimize your operations.

Intuitive Interface for Quick Decision Making

SkyLink's clean, simple and user-friendly interface makes it easy and effective for you to know immediately when interventions should be made. One small tweak can lead to thousands of dollars in savings.

Key Features:
- Protect your investment and eliminate stranded assets
- Manage all of your charging systems in one place
- World-class cloud based customer experience
- WiFi or Ethernet connectivity for data transmission and controls
- Energy consumption and billing reports
- Charger access control (vehicle authentication)
- Asset management status and reporting
- Multiple users and control management
- Built-in API to integrate customer SKADA / BI / Accounting systems
- Remote charger configuration and firmware updates

One Central Place for Asset Management

Manage your PosiCharge fast-charging systems through one central platform. Receive real-time data at your fingertips with actionable intelligence on the status, condition, and energy usage of your assets. Quickly identify, fix, and troubleshoot issues without negatively impacting your operations.

Gain an ROI on Your Investment

You've spent a lot of money on charging infrastructure. Don't let that investment go to waste. With SkyLink you can easily manage and measure energy usage, costs, and revenue. Identify, charge, and collect revenue from end-users based on utilization and energy consumed.
