

POSICHARGE SVS

SVS80

SINGLE PORT ELECTRIC MHE CHARGER

PosiCharge™ SVS80 is the cost-effective solution for fast charging high usage Class III vehicles such as pallet-jacks and tuggers. The versatile SVS80 has a compact footprint for easy integration, and it provides up to 200 amps of current through a single port, which makes it the optimal solution to round out your fast charge fleet.

SVS200

SINGLE PORT HIGH OUTPUT POWER ELECTRIC MHE CHARGER

PosiCharge SVS200 can supply 320 Amps with maximum efficiency, making it ideal for hard working distribution centers and manufacturing facilities. Built using ultra-efficient IGBT technology, the SVS200 is the high output charger of choice for customers looking to combine power with performance.

SVS300

SINGLE PORT HIGH OUTPUT POWER ELECTRIC MHE CHARGER

Delivering up to 500 Amps, the PosiCharge SVS300 is a heavy duty charger designed for the toughest applications. A cost-effective stand-alone solution that combines exceptional output capability with compact size, the SVS300 can be mounted virtually anywhere, keeping operations performing with maximum productivity.

Reliable. Intelligent Fast Charge.

The PosiCharge SVS are intelligent fast charging systems that range in power capability from 7kW to 30kW and are designed to handle multiple shifts for round-the-clock performance from light-duty vehicles to the hardest-working electric forklifts in your fleet.

The SVS 80/200/300 models are based on our robust single-port architecture for maximum flexibility and modularity. Vehicles conveniently recharge at various times throughout shifts during short, but opportune, "fast-charge" windows, such as breaks, lunches, shift changes, or during downtime.

Like with all PosiCharge chargers, advanced built-in battery protection technology can automatically custom-charge batteries of various sizes, capacity and duty-cycles, and can ensure that each battery receives maximum charge without exceeding safe temperatures.

Our revolutionary technology is designed to maximize fleet performance, productivity and battery life, and to make charging fast, worry-free and safe.

BENEFITS

Safety

- + Highest Safety Standards: UL1564, CEC (except SVS80), CSA, CE, RoHS Compliant
- + Unique built-in safety features protect employees & equipment
- + 0% battery changing-related accidents

Performance

- + BMID-managed, automated worry-free charging
- + Charge during scheduled breaks, keep your fleet running all day
- + 0% downtime due to battery changing
- + Proven to extend battery life and surpass battery warranties

Savings

- + Lower infrastructure & utility cost
- + Lower operational cost
- + Lower maintenance cost

FEATURES

- » Universal Battery Type, Brand, Voltage, Chemistry and AH Capacity
- » Real-Time Clock
- » Auto Thermal Shut Down
- » Shutdown Response Time 5ms
- » Maintains 250 Charge Event Logs
- » Auto Start/Stop
- » Closed Loop Gas Control
- » Line Frequency IGBT Technology
- » Easy Change Modular Output Cables – Single (up to 400A) and Dual (500A)
- » NEMA 1 Rated Enclosure

KEY OPTIONS

- » BATTERY RX™ - advanced battery monitor for maximum battery life with optional cellular connectivity and data services.
- » POSINET™ - works with cellular Battery Rx to collect battery charge data and run usage reports.
- » AUTOMATIC WATERING - ensures that water is only added when it is safe and appropriate
- » ELECTROLYTE IMMERSSED THERMISTOR - Temperature compensation to minimize gassing during fast charging & Temperature Fold Back to control battery overheating
- » MODULAR CABLE SYSTEM - for easy service
- » DYNAMIC EQUALIZATION SCHEDULER - delivers weekly EQ compliance without assigning specific chargers to trucks

SPECIFICATIONS

	SVS80	SVS200	SVS300
